

WHOLESALE
BAKED GOODS

OUR BAKERY PROGRAM

Feed Me Hope Bakery is a job training program available to women and guests in our women's shelter. The Bakery Program integrates women who have experienced trauma involving men back into a work environment near men, but not directly working alongside them.

Students learn everything from basic safety and sanitation guidelines to intricate piping techniques. They gain experience catering some of the events and fundraisers for the DHC, as well as filling daily orders and producing at mass production level for our [Feed Me Hope Food Truck](#) and local businesses. We have seen a remarkable transformation in the lives of our students as they begin to believe in their futures.
